UNIQUE BRAND GUIDELINES

For Residential • Apartments • Commercial • Interiors

BRAND POSITIONING (Foundation)

Personality:
Modern • Trustworthy • Quiet Luxury • Architectural • Timeless

Brand Feel:
Not loud. Not flashy.
Looks *expensive, calm, and confident*—like a well-designed building that doesn't need shouting.

UNIQUE COLOR PALETTE (Not Common in Construction)

Primary Palette (Core Identity)

Usage	Color Name	Hex Code	Feel
Primary	**Deep Clay Brown**	`#3B2F2F`	Earthy, strong, architectural
Secondary	**Muted Olive Stone**	`#6B705C`	Stability, nature, longevity
Base	**Warm Sand Beige**	`#E6DED3`	Premium, clean, welcoming

This avoids **blue, grey, yellow, and red**—very rare in construction branding.

Accent Palette (Luxury Touch)

Usage	Color Name	Hex Code	Use
Accent	**Burnt Copper**	`#B87333`	Highlights, icons, buttons
Contrast	**Charcoal Ink**	`#1F1F1F`	Text, outlines
Soft Light	**Ivory White**	`#FAF7F2`	Backgrounds

Burnt Copper replaces gold — looks rich but not flashy.

COLOR USAGE RULES

- **70%** Sand Beige / Ivory

- **20%** Deep Clay Brown / Olive
- **10%** Burnt Copper accents only

Never flood layouts with accent colour.

TYPOGRAPHY (Text Styles)

If something looks **too colorful**, it is **wrong**.

VINYAS CONSTRUCTIONS & DEVELOPERS

Engineering the Future. Designing Trust. Building Karnataka.

Clear Thinking. Honest Building. Trusted for Generations.

BRAND SOUL

Vinyas Constructions & Developers is not just a construction company. We are a **design-driven, engineer-led development brand** focused on creating spaces that last for generations.

Founded in **1994**, Vinyas brings over **three decades of experience** in planning, designing, and executing projects across **Mysore, Bangalore, Hassan, Tumkur, K.R. Nagar, Nanjangud, and Chamarajanagar**. Our journey has been shaped by engineering discipline, architectural clarity, and an unwavering commitment to trust.

We believe buildings are not just structures — they are long-term responsibilities. Every project we take up reflects our values of **clarity, loyalty, transparency, and accountability**.

WHAT MAKES US DIFFERENT

Most builders sell square feet.
We build ideas, structure, safety, and pride.

Our work begins long before construction starts. Every project is rooted in **engineering logic, architectural planning, and thoughtful design**, with deep respect for land, climate, and client vision.

We do not copy designs.
We do not rush decisions.
We **explain before we execute** and **plan before we promise**.

This approach ensures every space we build is not only visually refined but also structurally sound, practical, and future-ready.

BRAND PROMISE

What we design on paper is exactly what you live in reality.
No hidden decisions. No hidden costs.

Transparency is not an add-on for us — it is the foundation of how we work.

MAIN TAGLINE

Designed by Engineers. Built for Life.

Supporting Brand Lines

- Engineering First. Trust Always.
- Built on Logic. Delivered with Integrity.
- Clarity in Planning. Confidence in Living.
- Spaces That Respect Your Investment.

HERO STATEMENT

Building Modern Karnataka with Engineering Precision & Design Intelligence

We plan, design, and construct **residential, commercial, apartments, concept homes, farmhouses, and hospitality projects** using modern engineering, architectural expertise, interior design coordination, and transparent execution.

Engineer-led planning • Integrated architecture & interiors • Transparent costing • Quality-first execution • On-time delivery

Every decision explained. Every cost justified.

ABOUT US

We Build with Thinking, Not Guesswork

Vinyas Constructions & Developers was founded with one simple belief:

Strong buildings start with strong thinking.

Since 1994, we have consistently delivered projects across Karnataka by combining **engineering strength, architectural sensibility, interior design awareness, and disciplined execution**.

We take time to understand your land, lifestyle, budget, and long-term goals. Only then do we design and build — ensuring a balance of **beauty, strength, comfort, and value**.

Whether it is a family home, a commercial space, or a concept-driven project, we treat every assignment as **our reputation on the ground**.

WHAT WE PLAN, DESIGN & BUILD

Planning & Architectural Design

Our planning and architectural process is **engineering-backed and purpose-driven**. We focus on space efficiency, structural coordination, ventilation, natural light, and long-term usability.

Each design is created to be **practical, durable, and timeless**, not just visually appealing.
Built on logic, not assumptions.

Interior Design & Execution

Our interior designs are created to **support daily living**, not short-term trends. We handle complete interior planning and execution with attention to comfort, material quality, detailing, and maintenance.

Design that feels right today and lasts tomorrow.

Residential Construction

We design and build independent houses, villas, duplexes, and modern homes that reflect your lifestyle and future needs. Every home is planned with strong RCC structure, ventilation, and thoughtful layouts.

Planned honestly. Built responsibly.

Commercial Construction

From offices to retail and mixed-use spaces, our commercial projects focus on durability, load planning, and efficient layouts that support long-term business growth.

Durability you can depend on.

Apartments & Housing Projects

We undertake small and medium apartment projects with smart space planning, safety standards, parking logic, and resale-focused design.

Smart layouts. Strong resale value.

Concept Homes & Designer Projects

For clients who want something distinctive, we create concept-driven homes with unique architectural identity and controlled execution.

Creative ideas. Controlled execution.

Farmhouses

Our farmhouse projects blend comfort with nature through sustainable layouts, open spaces, and landscape-friendly planning.

Respecting land. Enhancing living.

Resorts & Hospitality Projects

We design hospitality spaces that balance guest experience with operational practicality and long-term returns.

Designing comfort. Delivering returns.

OUR PROCESS

Our process is designed to **remove confusion and build confidence**.

1. Understanding you, your land, and your vision
2. Planning & architectural design
3. Engineer-based structural planning
4. Purpose-driven architectural & interior design
5. Transparent cost planning
6. Quality execution
7. Handover with confidence

No surprises — only structured progress.

WHY VINYAS CONSTRUCTIONS

- Engineer-driven planning & design
- In-house architectural and interior coordination
- Clear communication at every stage
- Transparent costing
- Loyalty to client interests
- Strong structural focus
- Long-term durability
- Deep understanding of Karnataka conditions

We don’t rush projects. We build them right.

TRUST & PROMISE

Our Promise to Every Client

We will explain every plan, design, and cost clearly.
We will never hide materials or specifications.
We will respect your money like our own.
We will build exactly what we promise.
We will stand by our work even after handover.

Trust is not claimed. It is earned on site.

KARNATAKA CONNECT

We understand Karnataka’s climate, soil conditions, lifestyle needs, and evolving aspirations. From urban cities to developing towns, our designs balance **tradition and progress**.

With completed projects across **Mysore, Bangalore, Hassan, Tumkur, K.R. Nagar, Nanjangud, and Chamarajanagar**, we build with local knowledge and long-term responsibility.

We build for Karnataka. We build for people who think long-term.
